# 2030 Strategy

& Building Back Better

June 2021,

Rachel Brain, 2030 Strategy Manager

# Healthy nature helps us to...

**Mitigate ...**  
by absorbing or  
converting gases  
that do us harm

**Adapt...**  
to consequences  
we can't change  
e.g. provide shade

**Thrive...**  
food supply,  
economy, mental  
& physical health  
depend on nature

# 7 Key Priorities

1. **Energy**
2. **Built Environment**
3. **Natural Environment**
4. **Mobility**
5. **Economy**
6. **Waste**
7. **Community**

**75  
Commitments**

# Our 2030 Mission: To always...

act as an **example**, be an **enabler** and **encourager** to demonstrate leadership, doing everything in our power to achieve **ecosystem regeneration** and a **just transition** to a **carbon neutral**, resilient, inclusive and **equality driven** district.

**E.g. Tree Strategy  
Action Plan**

Planting and Salmon  
Springs Project

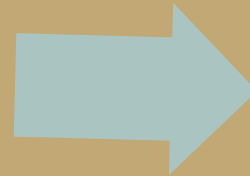

**Biodiversity  
Net Gain  
Strategies  
and plans**

**E.g. Own buildings and  
Local Plan**

Brimscombe Port Mill  
Project

**CN2030  
Strategies  
and Plans**

**E.g. Community and  
Leisure Strategy**

Community Hubs and  
Food Strategy

**Community  
Strategies  
and Plans**

**25  
Stretch Goals**

**Social Justice**

**Accessible Protected  
Nature**

**Resilient Local Economy**

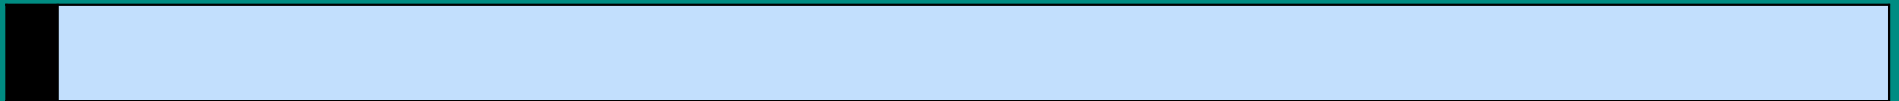

# Engagement and Action

**Annual Council Emissions**                      **2,119 tonnes**

Are a small fraction of the

**Districts annual total**                      **1, 366, 941 tonnes**

# Encouraging

New 2030 leaders to step forward

Youth Council

Also....

Climate Action Neighbourhoods

And...

Community Governance

Where the Council have least influence, least possibility to make change...

Everyone's job

...lies the MOST IMPORTANT part of the District Mission

# Thank you for listening
